Minnesota is our home, and our inspiration. Our catering company was founded with the same values as our restaurant: to create food with local character that is worthy of your celebrations and special events. All year long, we work with local farmers raising animals for meat and dairy in a sustainable way, and growing grain organically. We believe in letting the ingredients speak for themselves. Not only do the dollars for about 50% of our food purchases go to local producers, we use local vendors whenever possible and employ over 60 full-time staff members. We are proud to operate in an environmentally responsible way. All our food waste is composted by Eureka Recycling - since opening, we've diverted hundreds of thousands of pounds of waste from landfills. We provide compostable or reusable service ware for all events.
